1.2d Evaluation of Spanish with 'Soy Don Toro'

This was probably your first time learning a Spanish song.

- 1. What did you think of the song? Could you sing a lot of words?.....
- 2. How proactive were you? not at all moderately proactive very proactive
- 3. Did you also do the actions that go with the song? Did that help you remember the words better? What helped you to remember the new words best? (Look at the yellow box below.)
- 4. Have you shared your treasure drawing and your wish with your classmates? What did you think of this activity?

- 5. How did you feel about being helped by Ana and Don Toro online?
- 6. Would you like to hear a Spanish fairy tale about Jaime and his secret wish? You can do that in Exercise 1.3 on the internet. The pictures that go with it are in the Soy Don Toro workbook.

How I learn Spanish best:

- by saying the Spanish words out loud with help of the Prezi on the internet
- by playing the online games to put the pictures in the right order
- by playing with the pictures on the theme cards and repeating the words in the classroom and at home
- by singing the song a lot of times
- by doing the actions that go with the song
- by listening to the stories, doing the drawings and thinking about the words on my own.
